

Zeus Lite Technical Specifications

Zeus Lite is the pinnacle of live broadcasting with 4K 60 fps live encoding to multiple destinations including YouTube, Twitch, or a cloud provider of your choice. Zeus Lite is a one-time purchase with a lifetime license for \$26,000.

Zeus Lite has both an SDI and a 2110 version. After a down-payment is sent, a SpatialGen account manager will contact you within 12 hours to confirm your requested input type. If you have a unique cloud or DRM integration, SpatialGen will work with you to ensure the software shipped with your Zeus is fully compatible.
